

VILLAGE OF BALDWINSVILLE 2018 EARTH DAY CLEANUP

The Village of Baldwinsville is planning to hold a community Earth Day Cleanup in partnership with OCRRA on April 20th and April 21st and is looking for interested groups or individuals to participate. This cleanup will take place along designated banks and shore areas of the Seneca River located in Mercer Park, Community Park, Canal Park, Meadow Street and the Sergei Yevich Trail and other areas of the village.

This cleanup signifies the 15th such effort of the Village's Stormwater Management Program, which took effect on March 10, 2003. This program requires the Village to reduce the contaminants and solids that are entering these waters. This cleanup is one of the many management tools the Village will use to achieve the cleanup goals.

In the past Boy Scout and Girl Scout troops, The Rotary Club, The Lions Club, Baldwinsville Chamber of Commerce, school groups, individuals and families have participated in this effort. If you or your group is interested in volunteering to lend a helping hand for this three hour Earth Day event please contact the Village of Baldwinsville Department of Public Works at 315-635-9665 or the Onondaga County Resource Recovery Agency for additional information, sign up forms and locations available for clean up.
