Full Environmental Assessment Form Part 1 - Project and Setting

Instructions for Completing Part 1

Part 1 is to be completed by the applicant or project sponsor. Responses become part of the application for approval or funding, are subject to public review, and may be subject to further verification.

Complete Part 1 based on information currently available. If additional research or investigation would be needed to fully respond to any item, please answer as thoroughly as possible based on current information; indicate whether missing information does not exist, or is not reasonably available to the sponsor; and, when possible, generally describe work or studies which would be necessary to update or fully develop that information.

Applicants/sponsors must complete all items in Sections A & B. In Sections C, D & E, most items contain an initial question that must be answered either "Yes" or "No". If the answer to the initial question is "Yes", complete the sub-questions that follow. If the answer to the initial question is "No", proceed to the next question. Section F allows the project sponsor to identify and attach any additional information. Section G requires the name and signature of the applicant or project sponsor to verify that the information contained in Part 1 is accurate and complete.

A. Project and Applicant/Sponsor Information.

Name of Action or Project: Villas @ Seneca: Village Planning Board - Subdivision Plan Approval				
Project Location (describe, and attach a general location map):				
Corner of Gentry Street & Tappan Street (Tax Parcel # 01501-12.2)				
Brief Description of Proposed Action (include purpose or need):				
The project involves the development of a \pm 8.78 acre property into \pm 19 single family residen roadway, utilities, and stormwater management areas.	tial subdivision along with associated	d

receiving water (name and classification if surface discharge or describe subsurface disposal plans):	, proposad
vi. Describe any plans or designs to capture, recycle or reuse liquid waste:	NAME OF THE OWNER
e. Will the proposed action disturb more than one acre and create stormwater runoff, either from new point	∠ Yes □No
sources (i.e. ditches, pipes, swales, curbs, gutters or other concentrated flows of stormwater) or non-point	
source (i.e. sheet flow) during construction or post construction? If Yes:	
i. How much impervious surface will the project create in relation to total size of project parcel?	
Square feet or <u>±2.20</u> acres (impervious surface)	
Square feet or <u>±8.78</u> acres (parcel size)	
ii. Describe types of new point sources. Earth Swales and Storm Sewer System	
iii. Where will the stormwater runoff be directed (i.e. on-site stormwater management facility/structures, adjacent p	roperties,
groundwater, on-site surface water or off-site surface waters)?	
On-site stormwater management facility	
If to surface waters, identify receiving water bodies or wetlands:	
Seneca River	
October 1494	
Will stormwater runoff flow to adjacent properties?	☐ Yes No
iv. Does the proposed plan minimize impervious surfaces, use pervious materials or collect and re-use stormwater?	
f. Does the proposed action include, or will it use on-site, one or more sources of air emissions, including fuel	□Yes Z No
combustion, waste incineration, or other processes or operations?	
If Yes, identify:	
i. Mobile sources during project operations (e.g., heavy equipment, fleet or delivery vehicles)	
ii. Stationary sources during construction (e.g., power generation, structural heating, batch plant, crushers)	
iii. Stationary sources during operations (e.g., process emissions, large boilers, electric generation)	
g. Will any air emission sources named in D.2.f (above), require a NY State Air Registration, Air Facility Permit,	□Yes Z No
or Federal Clean Air Act Title IV or Title V Permit?	
If Yes:	
i. Is the project site located in an Air quality non-attainment area? (Area routinely or periodically fails to meet	□Yes □No
ambient air quality standards for all or some parts of the year)	
ii. In addition to emissions as calculated in the application, the project will generate:	
•Tons/year (short tons) of Carbon Dioxide (CO ₂)	
•Tons/year (short tons) of Nitrous Oxide (N ₂ O)	
Tons/year (short tons) of Perfluorocarbons (PFCs)	
•Tons/year (short tons) of Sulfur Hexafluoride (SF ₆)	
Tons/year (short tons) of Carbon Dioxide equivalent of Hydroflourocarbons (HFCs) The state of the state	
Tons/year (short tons) of Hazardous Air Pollutants (HAPs)	

 h. Will the proposed action generate or emit methane (including, but not limited to, sewage treatment plants, landfills, composting facilities)? If Yes: i. Estimate methane generation in tons/year (metric): ii. Describe any methane capture, control or elimination measures included in project design (e.g., combustion to gene electricity, flaring): 	☐Yes ☑No
Will the proposed action result in the release of air pollutants from open-air operations or processes, such as quarry or landfill operations? If Yes: Describe operations and nature of emissions (e.g., diesel exhaust, rock particulates/dust):	∐Yes ∏ No
 j. Will the proposed action result in a substantial increase in traffic above present levels or generate substantial new demand for transportation facilities or services? If Yes: i. When is the peak traffic expected (Check all that apply):	_Yes . No :
 iii. Parking spaces: Existing Proposed Net increase/decrease iv. Does the proposed action include any shared use parking? v. If the proposed action includes any modification of existing roads, creation of new roads or change in existing and proposed action includes any modification of existing roads. 	☐Yes☐No ccess, describe:
vii Will the proposed action include access to public transportation or accommodations for use of hybrid, electric or other alternative fueled vehicles?	□Yes□No □Yes□No □Yes□No
k. Will the proposed action (for commercial or industrial projects only) generate new or additional demand	□Yes□No
for energy? If Yes: i. Estimate annual electricity demand during operation of the proposed action: ii. Anticipated sources/suppliers of electricity for the project (e.g., on-site combustion, on-site renewable, via grid/loc other):	
iii. Will the proposed action require a new, or an upgrade, to an existing substation?	□Yes□No
I. Hours of operation. Answer all items which apply.	
i. During Construction: ii. During Operations:	
Monday - Friday: 7 am to 6 pm	use)
Saturday: 8 am to 4 pm Saturday: 24 hr per day (residential)	
Sunday: Sunday: 24 hr per day (residential)	
Holidays: Holidays: Holidays: Holidays:	

m. Will the proposed action produce noise that will exceed existing ambient noise levels during construction, operation, or both?	☐ Yes ☑ No
If yes:	
i. Provide details including sources, time of day and duration:	
ii. Will the proposed action remove existing natural barriers that could act as a noise barrier or screen?	□Yes□No
Describe:	
n. Will the proposed action have outdoor lighting?	Z Yes □No
If yes: i. Describe source(s), location(s), height of fixture(s), direction/aim, and proximity to nearest occupied structures:	
Street Lights, Residential Yard Lights	
Street Lights, Residential Faid Lights	
ii. Will proposed action remove existing natural barriers that could act as a light barrier or screen?	☐ Yes Z No
Describe:	
o. Does the proposed action have the potential to produce odors for more than one hour per day?	☐ Yes Z No
If Yes, describe possible sources, potential frequency and duration of odor emissions, and proximity to nearest	
occupied structures:	
p. Will the proposed action include any bulk storage of petroleum (combined capacity of over 1,100 gallons)	☐ Yes Z No
or chemical products 185 gallons in above ground storage or any amount in underground storage? If Yes:	
i. Product(s) to be stored	
ii. Volume(s) per unit time (e.g., month, year)	THE PERSON NAMED IN COLUMN TWO IS NOT THE PERSON NAMED IN COLUMN TO THE PERSON NAMED IN COLUMN T
iii. Generally, describe the proposed storage facilities:	
q. Will the proposed action (commercial, industrial and recreational projects only) use pesticides (i.e., herbicides,	☐ Yes ☐No
insecticides) during construction or operation?	
If Yes:	
i. Describe proposed treatment(s):	
ii. Will the proposed action use Integrated Pest Management Practices?	☐ Yes ☐No
r. Will the proposed action (commercial or industrial projects only) involve or require the management or disposal	✓ Yes □No
of solid waste (excluding hazardous materials)? If Yes:	
i. Describe any solid waste(s) to be generated during construction or operation of the facility:	
• Construction: 4 tons per month (unit of time)	
Operation: 6 tons per	
ii. Describe any proposals for on-site minimization, recycling or reuse of materials to avoid disposal as solid waste	:
Construction: Follow general accepted programs for reuse/recycling	
Operation: Follow County Resources Recovery Agency (OCRRA) Recycling Program	
iii. Proposed disposal methods/facilities for solid waste generated on-site:	
Construction: Disposal by OCCRA	
Operation:Disposal by OCCRA	

s. Does the proposed action include construction or modification of a solid waste management facility?			
If Yes: i. Type of management or handling of waste proposed for the site (e.g., recycling or transfer station, composting, landfill, or			
other disposal activities):	for the site (e.g., recycling o	or transfer station, composting	g, iandiiii, or
ii. Anticipated rate of disposal/processing:			
Tons/month, if transfer or other non-o	combustion/thermal treatmen	nt, or	
 Tons/hour, if combustion or thermal 	treatment	•	
iii. If landfill, anticipated site life:	years		
t. Will the proposed action at the site involve the commer	rcial generation, treatment, s	torage, or disposal of hazard	ous Yes No
waste?	,	•	
If Yes:			
i. Name(s) of all hazardous wastes or constituents to be	generated, handled or mana	iged at facility:	
ii. Generally describe processes or activities involving h	azardous wastes or constitu	ents:	
iii. Specify amount to be handled or generated to	ons/month		
iv. Describe any proposals for on-site minimization, rec	yeling or reuse of hazardous	constituents:	

v. Will any hazardous wastes be disposed at an existing	offsite hazardous waste fac	ility?	□Yes□No
If Yes: provide name and location of facility:	·	· · · · · · · · · · · · · · · · · · ·	
If No: describe proposed management of any hazardous	wastes which will not be sen	it to a hazardous waste facilit	y:
E. Site and Setting of Proposed Action			
E.1. Land uses on and surrounding the project site			
a. Existing land uses.			
i. Check all uses that occur on, adjoining and near the project site.			
☐ Urban ☐ Industrial ☐ Commercial ☑ Resid	lential (suburban) 🔲 Rura	al (non-farm)	
Forest Agriculture Aquatic Other	(specify):		
ii. If mix of uses, generally describe:			
b. Land uses and covertypes on the project site.			
Land use or	Current	Acreage After	Change
Covertype	Acreage	Project Completion	(Acres +/-)
Roads, buildings, and other paved or impervious surfaces	0	2.20	+2.20
Forested			
1 Tolested	0.70	2.20	6.50
Meadows grasslands or brushlands (non-	8.78	2.28	-6.50
Meadows, grasslands or brushlands (non- agricultural, including abandoned agricultural)	8.78 0	2.28 4.30	-6.50 +4.30

agricultural, including abandoned agricultural) • Agricultural (includes active orchards, field, greenhouse etc.) • Surface water features (lakes, ponds, streams, rivers, etc.) • Wetlands (freshwater or tidal) • Non-vegetated (bare rock, earth or fill)	0 0 0		
agricultural, including abandoned agricultural) • Agricultural (includes active orchards, field, greenhouse etc.) • Surface water features (lakes, ponds, streams, rivers, etc.) • Wetlands (freshwater or tidal)	0 0 0		

To the project site approach, year by manufact of the community for multiple approaching	□Yes☑No
c. Is the project site presently used by members of the community for public recreation? i. If Yes: explain:	∐ Yes⊠No
d. Are there any facilities serving children, the elderly, people with disabilities (e.g., schools, hospitals, licensed	☐ Yes Z No
day care centers, or group homes) within 1500 feet of the project site?	
If Yes,	
i. Identify Facilities:	
e. Does the project site contain an existing dam?	☐ Yes Z No
If Yes: i. Dimensions of the dam and impoundment:	
•	
Dam height:	
-	
 Surface area: acres Volume impounded: gallons OR acre-feet 	
ii. Dam's existing hazard classification:	
iii. Provide date and summarize results of last inspection:	
*	
	V
f. Has the project site ever been used as a municipal, commercial or industrial solid waste management facility,	☐ Yes Z No
or does the project site adjoin property which is now, or was at one time, used as a solid waste management facil	ity?
If Yes:	
i. Has the facility been formally closed?	□Yes□ No
If yes, cite sources/documentation:	
ii. Describe the location of the project site relative to the boundaries of the solid waste management facility:	
iii. Describe any development constraints due to the prior solid waste activities:	
g. Have hazardous wastes been generated, treated and/or disposed of at the site, or does the project site adjoin	□Yes ☑ No
property which is now or was at one time used to commercially treat, store and/or dispose of hazardous waste?	
If Yes:	1
i. Describe waste(s) handled and waste management activities, including approximate time when activities occurred	ed:
h. Potential contamination history. Has there been a reported spill at the proposed project site, or have any	☐Yes ✓ No
remedial actions been conducted at or adjacent to the proposed site?	1034 140
If Yes:	
i. Is any portion of the site listed on the NYSDEC Spills Incidents database or Environmental Site	□Yes□No
Remediation database? Check all that apply:	
Yes – Spills Incidents database Provide DEC ID number(s):	
Yes – Environmental Site Remediation database Provide DEC ID number(s):	
☐ Neither database	
ii. If site has been subject of RCRA corrective activities, describe control measures:	
iii. Is the project within 2000 feet of any site in the NYSDEC Environmental Site Remediation database?	□Yes□No
If yes, provide DEC ID number(s):	
iv. If yes to (i), (ii) or (iii) above, describe current status of site(s):	

v. Is the project site subject to an institutional control limiting property uses?	☐Yes□No
If yes, DEC site ID number:	
 Describe the type of institutional control (e.g., deed restriction or easement): Describe any use limitations: 	
Describe any use limitations: Describe any engineering controls:	
 Describe any engineering controls: Will the project affect the institutional or engineering controls in place? 	□Yes□No
Explain:	
E.2. Natural Resources On or Near Project Site	
a. What is the average depth to bedrock on the project site? > 8' feet	
b. Are there bedrock outcroppings on the project site?	☐ Yes Z No
If Yes, what proportion of the site is comprised of bedrock outcroppings?%	
c. Predominant soil type(s) present on project site: Collamer Silt Loam 50.6 %	
Arkport Very Fine Sandy Loam 38.8 %	
Wampsville gravelly silt loam 10.6 %	
d. What is the average depth to the water table on the project site? Average: 0.5 to > 6 ft feet	
e. Drainage status of project site soils: Well Drained: 38.8 % of site	
✓ Moderately Well Drained: 10.6 % of site	
☑ Poorly Drained	
f. Approximate proportion of proposed action site with slopes: 0-10%: 100 % of site	
☐ 10-15%:% of site ☐ 15% or greater:% of site	
g. Are there any unique geologic features on the project site?	☐ Yes Z No
If Yes, describe:	1031110
h. Surface water features.	
i. Does any portion of the project site contain wetlands or other waterbodies (including streams, rivers,	∐Yes ∑ No
ponds or lakes)?	
ii. Do any wetlands or other waterbodies adjoin the project site?If Yes to either i or ii, continue. If No, skip to E.2.i.	□Yes ☑ No
iii. Are any of the wetlands or waterbodies within or adjoining the project site regulated by any federal,	□Yes Z No
state or local agency?	L 1 CS L INO
iv. For each identified regulated wetland and waterbody on the project site, provide the following information:	
• Streams: Name Classification	
Lakes or Ponds: Name Classification Wetlands: Name Approximate Size	
Wetland No. (if regulated by DEC) Wetland No. (if regulated by DEC)	
v. Are any of the above water bodies listed in the most recent compilation of NYS water quality-impaired	☐Yes Z No
waterbodies? If yes, name of impaired water body/bodies and basis for listing as impaired:	
if yes, name of impaned water body/bodies and basis for fisting as impaned.	
i. Is the project site in a designated Floodway?	☐Yes Z No
j. Is the project site in the 100-year Floodplain?	□Yes Z No
k. Is the project site in the 500-year Floodplain?	□Yes Z No
I. Is the project site located over, or immediately adjoining, a primary, principal or sole source aquifer?	Z Yes □No
If Yes:	
i. Name of aquifer: Baldwinsville Primary	

m. Identify the predominant wildlife species that occupy or use the project site:		
Raccoon / Squirrel / Chipmunk		
Various Birds		
n. Does the project site contain a designated significant natural community?		☐Yes Z No
If Yes: i. Describe the habitat/community (composition, function, and basis for designate)	ion):	
r. Describe the habital community (composition, function, and basis for designation)		
ii. Source(s) of description or evaluation:		
iii. Extent of community/habitat:		
Currently:	_ acres	
Following completion of project as proposed:	acres	
• Gain or loss (indicate + or -):	_ acres	
o. Does project site contain any species of plant or animal that is listed by the fede	ral government or NYS as	✓ Yes No
endangered or threatened, or does it contain any areas identified as habitat for a		
If Yes:	3	
i. Species and listing (endangered or threatened):		
Area is a reported possible habitat for Bald Eagle		
rica is a reported possible mastat for ball Eagle		
p. Does the project site contain any species of plant or animal that is listed by NY	S as rare, or as a species of	☐Yes ☑ No
special concern?		
If Yes:		
i. Species and listing:		
Yellow in the district of the control of the contro		
q. Is the project site or adjoining area currently used for hunting, trapping, fishing If yes, give a brief description of how the proposed action may affect that use:		□Yes Z No
in yes, give a oner description or now the proposed action may affect that use.		
E.3. Designated Public Resources On or Near Project Site		
a. Is the project site, or any portion of it, located in a designated agricultural district	ct certified pursuant to	☐Yes Z No
Agriculture and Markets Law, Article 25-AA, Section 303 and 304?		
If Yes, provide county plus district name/number:		
b. Are agricultural lands consisting of highly productive soils present?		Z Yes □No
i. If Yes: acreage(s) on project site? 100		1 10
ii. Source(s) of soil rating(s): NYS Ag & Markets		
c. Does the project site contain all or part of, or is it substantially contiguous to, a	registered National	☐Yes Z No
Natural Landmark?	registered reasonal	1 63 2 110
If Yes:		
 i. Nature of the natural landmark: Biological Community G 	eological Feature	
ii. Provide brief description of landmark, including values behind designation ar	d approximate size/extent:	
d. Is the project site located in or does it adjoin a state listed Critical Environmenta	al Area?	☐Yes Z No
If Yes:		
i. CEA name:		
ii. Basis for designation:		
iii. Designating agency and date:		

e. Does the project site contain, or is it substantially contiguous to, a building, archaeological site, or district Wyes No which is listed on the National or State Register of Historic Places, or that has been determined by the Commissioner of the NYS Office of Parks, Recreation and Historic Preservation to be eligible for listing on the State Register of Historic Places? If Yes:		
 i. Nature of historic/archaeological resource: Archaeological Site ii. Name: NYS Barge Canal Historic District iii. Brief description of attributes on which listing is based: 	☐Historic Building or District	
f. Is the project site, or any portion of it, located in or adjacent to an area designated as sensitive for archaeological sites on the NY State Historic Preservation Office (SHPO) archaeological site inventory?		∑ Yes □ No
g. Have additional archaeological or historic site(s) or resources been identified on the project site? If Yes: i. Describe possible resource(s): ii. Basis for identification:		□Yes ☑ No
h. Is the project site within fives miles of any officially designated and publicly accessible federal, state, or local Security or scenic or aesthetic resource? If Yes: i. Identify resource: ii. Nature of, or basis for, designation (e.g., established highway overlook, state or local park, state historic trail or scenic byway,		
 ii. Nature of, or basis for, designation (e.g., established highway overlook, state or local park, state historic trail or scenic byway, etc.): iii. Distance between project and resource: miles. 		
 i. Is the project site located within a designated river corridor under the Wild, Scenic and Recreational Rivers Program 6 NYCRR 666? If Yes: i. Identify the name of the river and its designation: 		
ii. Is the activity consistent with development restrictions contained in 6NYCRR Part 666?		□Yes □No
F. Additional Information Attach any additional information which may be needed to clarify your project. If you have identified any adverse impacts which could be associated with your proposal, please describe those impacts plus any measures which you propose to avoid or minimize them.		
G. Verification I certify that the information provided is true to the best of my knowledge.		
Applicant/Sponsor Name Karl Ashley	Date_4/07/2025
